

>> Healthcare & Life Sciences Industry:
Like yours, our business is focused on positive outcomes.

Quick Reference Guide:

Hospitals, pharma and biotech firms operate in a tight regulatory (think FDA, HIPAA, Stark Law, ACA, Medicare) and competitive environment. That demands complete process inefficiency to control costs and optimize resources.

Increasingly, healthcare and life sciences companies are leveraging Determine's two decades of source-to-pay and contract management experience to turn industry challenges into business opportunities.

Through the modular Determine Cloud Platform, we enable you to achieve the visibility, agility and digital transformation that empower better, faster business decisions. Decisions that will help you enjoy a distinct competitive advantage and improve bottom-line results.

\$8 Billion Savings per year

Estimated savings by switching to technology from manual health insurance claim form processing Council for Affordable Quality Healthcare

Determine Cloud Platform:
